

The stylishly curved roof is created with curved longrun steel roofing in 'Habitats Metallic Silver' and painted with 'Colorcote ZRX'. The exterior cladding is Shadowclad texture and plywood.

Architect Jim from Elliot Architecture also designed the home's modern lighting, which was then installed by Herbert Electrical Ltd.

Secluded Sophistication

This Taranaki home in Urenui is simply striking. The ultra modern design and extensive use of stainless steel and glass make for a truly unique home that succinctly reflects the owners' taste and style.

Brent Stewart Builders built this home with an emphasis on low maintenance and adhering to the owner's wishes. Brent worked closely with the owner and Elliot Architects to ensure everyone's ideas were being realised. Brent Stewart believes that the only way to run a smooth project is as a team, incorporating

the builders, contractors, designers, and clients. Brent Stewart Builders prides itself on being a full building provider - from design and development to landscaping.

Benchmark Building Supplies provided a wide range of building products for this home, both internally and externally. The exterior is Shadowclad texture and plywood cladding, which is a light yet strong exterior lining. Shadowclad requires no special tools to apply it and it has a permanent glue bond as well as the ability to be curved. The interior lining of the home includes Winstones GIB board, Ultraline, Wideline, and Cedar. Benchmark Building Supplies can supply all building materials required to build a home from the ground up. The experienced and knowledgeable team supplies to trade, retail, and DIY customers.

For a unique, stylish roof **Dimond** chose curved longrun steel roofing. Steel roofing allows for curvature, such as the smooth curve on this roof that blends in with the lines of the surrounding environment. Another chic feature is the roof's 'Habitats Metallic Silver' colour. The profile shape of the steel is Dimond Corrugate and the paint used is 'Colorcote ZRX', which is specifically designed for use in mild/

moderate to severe marine environments. Dimond is New Zealand's largest roofing, cladding, and rainwater systems manufacturer. The company has been in business for over 30 years and now has twelve sales centres nationwide.

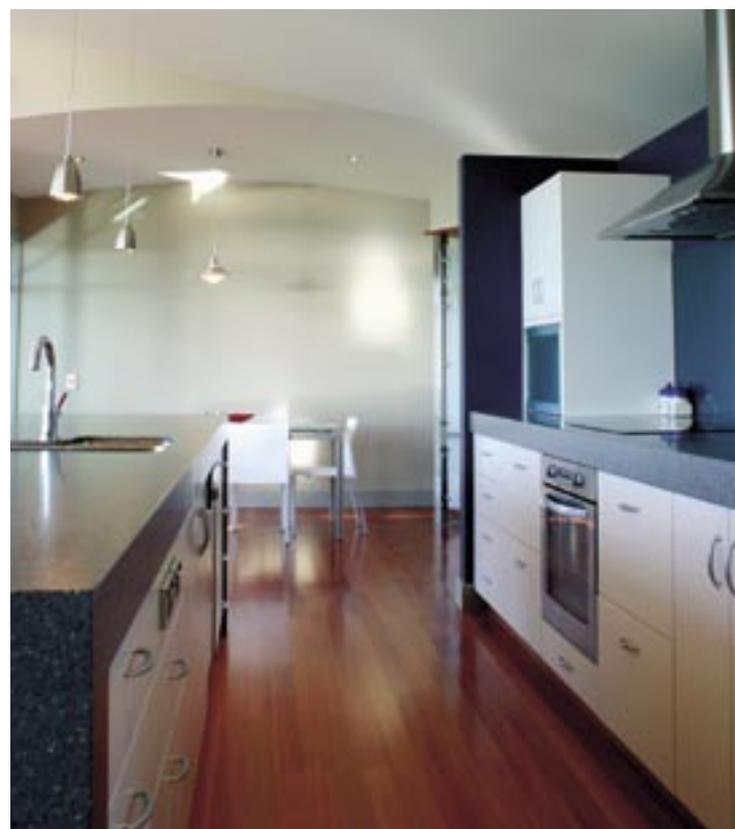

The natural light in this home is amazing, but when the sun goes down the owners are assured perfect lighting situations in all rooms thanks to **Herbert Electrical Ltd.** Herbert Electrical Ltd provided the home's mains system and installed all the electrical wiring. They also installed the light fittings supplied by the owner. The stainless steel theme is continued with PPL black and brushed stainless steel cover plates on electrical outlets plus stainless steel light shades. A combination of recessed halogen lights and hanging pendant lights gives variety. Herbert Electrical Ltd has 17 years experience in lighting projects, design, and maintenance.

WestWood Custom Furniture & Joinery ensured this kitchen really stood out. The stunning Corian 'Macadam' solid surface bench tops are 100mm thick. Corian is manufactured from acrylic resin by Dupont and comes with Dupont's 10-year warranty. The product has been used in New Zealand for 18 years and can be repaired or repolished ▶

Above The centerpiece of this gorgeous kitchen is the island unit featuring a Corian 100mm bench top in 'Macadam'. Modern appliances and details complete the classy look.

Left Sydney Bluegum timber, used on the back of the island unit and the kitchen floors, adds an attractive, natural element to the home.

at any time. Corian is an attractive option because it has no visible joins and scratches can be removed. It is a versatile product - any shape or profile can be achieved with it. West Wood Custom Furniture & Joinery also provided the Sydney Bluegum timber on the island unit and flooring. Scilm aluminium doors with frosted glass cover the microwave and appliance cupboard, and a chrome pullout pantry system makes use of the space available. The neutral colour of the kitchen is Resene's 'Albescent White'. The company also provided all timber interior doors, laundry units, and bedroom shelving. West Wood Custom Furniture & Joinery offers over 30 years-combined experience to the industry. Wayne Herbert of West Wood Furniture has 12 years personal experience with seven and a half years in business producing kitchens and design of the highest quality. Ninety-five percent of the company's work stems from referrals. ■
